

REMARKS

I. Omitted Items

In the "Notice to Omitted Item(s) in a Nonprovisional Application" dated June 25, 2004, a copy of which is included herewith, it was indicated that Figure 2(c) described in the specification was not included with submitted drawings. The Applicants are therefore deleting paragraph 0016 by amendment, as indicated herein, in order to comply with the instructions set forth in the "Notice to Omitted Item(s) in a Nonprovisional Application" dated June 25, 2004.

V. Conclusion

The Applicants have amended specification to more particularly disclose the invention claimed thereof. It is believed that such amendments do not constitute new matter, but are rather clarifying in nature. Additionally, it is believed that support for such amendments is provided within the specification, including the drawings and claims, and that the specification adequately enables such amendments.

In view of the foregoing discussion, the Applicants have responded to the "Notice to Omitted Item(s) in a Nonprovisional Application" dated June 25, 2004. Applicants believe that the preliminary amendment indicated herein corrects any errors noted in the "Notice to Omitted Item(s) in a Nonprovisional Application" dated June 25, 2004. Applicants therefore request that a new and/or updated filing receipt be generated by the Office.
